Dear Sir,

Thank you for your letters of 25th October and 6th November from which we learn of your long distance reception of our London Home Service on 908 kc/s and our Northern Home Service on 692 kc/s. The programmes you received in both instances are nightly contributions called "Music at Night" and consist of classical music on gramophone records.

The London Home service transmitter on the 22nd October radiated "Ravel's String Quartet in F major from (GMT) 10.15 p.m. to 10.45 p.m. followed by close-down procedure. The Northern Home service transmitter on 31st October radiated "Schubert's Trio in E Flat major" from (GMT) 11.02 p.m. to 11.45 p.m. followed by close-down procedure. These programmes appear to tie in with your logging data.

Our London Home service transmitter is situated approximately fifteen miles north of the centre of London in the Potter's Bar district. The transmitter power is 140kW and the aerial is a 500 ft. mast radiator. The population served is approximately 13 million.

Our Northern Home service transmitter is situated approximately five miles east of Huddersfield. The transmitter power is 150kW and the aerial is a four wire 'T' supported by two 500 ft. masts. The population served is approximately 14 million.

We are sorry but we do not issue QSL cards and hope that the information set out in this letter satisfies your requirements.

Yours faithfully,

J.H. Burr.
